

FD100 Foot Dispenser

The FD100 foot pedal dispenser is an all-pneumatic fluid dispense system. The unit is easily actuated by pressing down the metal pedal allowing the user a simple yet effective method of dispensing fluid from a syringe or cartridge.

An internally actuated air valve, pressure regulator and gauge ensure consistent dispense results. The vacuum control valve can be used to prevent low viscosity fluids from dripping in-between dispense cycles. The FD100 is suitable for dispensing all types of fluids and helps achieve better control than standard manual dispensing processes.

Features

- Economical and simple to use
- Suck-back control
- Supplementary brackets and stand included for improved convenience and productivity
- Protective kick plate to prevent damage to internal pneumatic components

Benefits

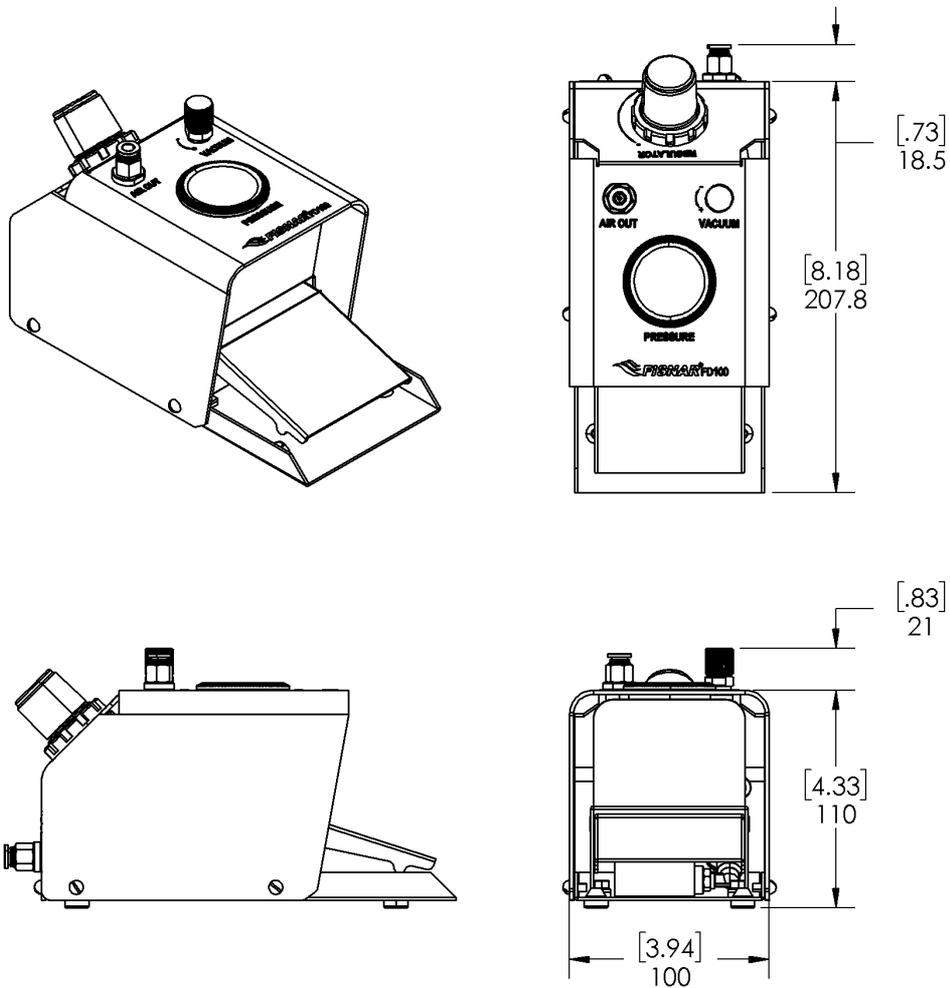

- All pneumatic operation allows the dispenser to be used in locations without electrical supply
- Suitable for a wide range of applications
- Designed for use in heavy industrial environments
- Convenient top mounted pressure gauge for easier monitoring

Spare Parts (included)

| Item Number | Description |
|-------------|------------------------------------|
| 5601980 | Dispenser Cable & Tubing Organizer |
| 5601981 | Retainer Holder - 58mm I.D. |

FD100 Foot Dispenser

Specifications

| Item Number | FD100 |
|-----------------------|---|
| Cycle | Manual |
| Air Input | 70 - 100 psi (7 bar) max |
| Air Output | 1 - 100 psi (0.07 - 7 bar) |
| Operating Temperature | 50 - 104 °F (10 - 40 °C) |
| Relative Humidity | 20 - 90% (No Condensation) |
| Dimensions (WxDxH) | 3.9" x 8.2" x 4.3" (100 x 208 x 110 mm) |
| Weight | 4.01 lbs (1.82 kg) |
| Standards | RoHS Compliant |
